

WORCESTER HISTORICAL MUSEUM

FREE FUN FRIDAY: BLAST to the PAST
Friday, August 9, 2019, 10AM-4PM
*Worcester Historical Museum and
Salisbury Mansion*

See how vastly different it is between 1869 and 1969 at the Museum and also at its largest artifact—Salisbury Mansion. See maps of the transition of farm land to industry. Gather the chickens and pigs on the farm and put them back in their pen. Make your own chicken or pig to take home!

Then experience the 1960's at the Museum with a streaming video of the 1969 moon landing. Meet Dr. Godard, inventor of the world's first liquid-fueled rocket. We will have plenty of Motown music, make tie-dye t-shirts and hippie crafts, hula hoops and then *Let's Do The Twist* with Smiley! Visit Mrs. B's Diner, go shopping in the Salisbury Store, visit the Smiley Face Gallery—the story of a true Worcester original!

**Free Fun Friday is
courtesy of the
Highland Street
Foundation.**
